***Allowable Subject Matter***

Claims 1-7, 14-21, 23-29, 34-36, and 41-43 are allowed.

The following is an examiner's statement of reasons for allowance:

The reason for allowance of claims 1-7, 14-20, and 23-29 is as stated in the Office Action dated 8-23-2006.

Claim 21 recites, " wherein the processing unit at least compares energy output to the fan with angular speed of the fan over time to at least determine fan failure or fan wear and at least uses historical data of the energy output to the fan with the angular speed of the fan to determine if energy consumption is increasing, and wherein the processing unit outputs a result of the determination". This feature, in combination with additional claimed structure, overcomes the prior art of record.

Claim 34 recites, " determining if there is an impending fan failure based upon the comparison at the first time and the comparison at the second time; and outputting a result of the determination". This feature, in combination with additional claimed structure, overcomes the prior art of record.

Claim 41 recites, " computer code for determining if there is an impending fan comparison at the first time and the comparison at the second time, and computer code for outputting a result of the determination". This feature, in combination with additional claimed structure, overcomes the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
